Yoshiya Hinosawa

A web dev in ᴊᴘ. Contributing to **@denoland**. Maintaining **@capsidjs**. he/him

- **@denoland**
- Tokyo, Japan
- https://kt3k.org
- @kt3k

```
My name is Yoshiya Hinosawa. I've been a web engineer in ᴊᴘ for about
10 years. I specialize in frontend development. Currently I work for
Deno 🦕🐢.
I use mainly JavaScript and TypeScript for my job, and sometimes I use
Rust, Golang, Python, Java, etc depending on the situations. I've
published ~100 packages to npm ( https://www.npmjs.com/~kt3k ).
I've been learning Rust 🦀, Go, and OCaml 🐫 recently.
```

- @lcasdev

- Hey 👋
- My name is Luca Casonato. I work at Deno Land Inc, building Deno, maintaining deno.land/x, and various projects around it. If you want to sponsor that work, head to https://github.com/sponsors/denoland.
- I also work on various other open source projects like deno_s3, now-deno, and dext.ts. These sponsorships help pay for cloud resources like VM instances, AWS Lambda, or networking on my personal and open source projects.
- I greatly value your support. Hit me up on Twitter if you want to chat :-)
